

Business Governance for Dairy Farming

Take your dairy farm business to the next level...

This workshop covers **effective business governance principles including:**

- a. Strategic planning and risk management
- b. Organisational structures and policies
- c. Culture, values and strategy
- d. Can an advisory board work?
- e. Case studies of other farms

This is a new program that has been developed by Dairy Australia and very successfully run for large suppliers in Melbourne. This is the first time for Tasmania and it is being made available to all dairy farmers.

Participating dairy farmers are encouraged to bring along any advisor or consultant they work with on the farm business.

When: June 19th @ Bush Inn, Deloraine
June 20th @ Agritas, Smithton

Time: 9am till 5pm both days
Morning & Afternoon Teas & Lunch provided.

Free for Tasmanian dairy farmers through support from Dairy Australia and the IntoDairy project.

David Heinjus from 'Rural Directions' in South Australia will facilitate the workshop. David comes with farm experience and has extensive and diverse business governance experience in both investor driven and family farming businesses across all sectors of agriculture.

There is great value in bringing along farm business partners and your farm advisor. This will assist in implementing the tools and learnings from the workshop into your business.

Register now with DairyTas on 64322233 or call to get the full program.
Numbers are limited.
