

You are invited to a Tassie first!
Effluent Expo 2018

Practical tips and technologies for effluent
management on Tasmanian dairy farms
- for farmers and service providers

Thursday 24 May 2018
10 am - 2.30 pm at Togari Community Centre
(corner of Bass Hwy and Salmon River Rd)

Program

10 am - 12 noon: Short talks, discussion panel, Q&A and trade displays from Tasmanian and NZ effluent experts, equipment suppliers & farmers

12 noon - 2.30 pm: Farm bus tour to:

- new "Hatfield" cowshed and above ground effluent storage tank
- van Adrichem robotic dairy with underground effluent storage bunkers

TRADE DISPLAYS OPEN 9.30 am to 3.30 pm - Tas and NZ effluent equipment suppliers will have info and equipment on display

This day is a must if you are planning an effluent system upgrade and looking for innovative solutions for your farm. Every farm needs a tailored effluent management solution - our aim is to introduce a range of options and sources of further advice. Focus will be on effluent management for challenging situations eg. soil type/high water table, increased herd size/industry growth, high rainfall, labour availability.

RSVP by 22 May to DairyTas 6432 2233 or contact Rachel Brown, Sustainable Dairying Adviser, for more info 0409 333 381.

Free lunch provided - lunch packs to eat on the bus tour. Please wear clean boots & biosecurity booties will be provided for farm tour.
